THE UNIVERSITY OF CHICAGO

1. The first part of the document is a list of names and addresses, which are arranged in two columns. The names are written in a cursive script, and the addresses are written in a more formal, printed style. The list includes names such as "John Smith", "Mary Jones", and "Robert Brown".
 2. The second part of the document is a series of numbered entries, each followed by a brief description or note. These entries are organized into a single column and are numbered from 1 to 10.
 3. The third part of the document is a table with three columns. The first column contains numbers, the second column contains names, and the third column contains dates. The table appears to be a record of some kind, possibly a ledger or a calendar.
 4. The fourth part of the document is a short paragraph of text, which seems to be a summary or conclusion of the information presented in the previous sections. It is written in a clear, concise style.

Sir:

In compliance with departmental order of April 25, 1912, providing for descriptions according to new surveys of lands included in withdrawals I submit the attached order (Power Site Interpretation No. 283, Nevada) which describes more adequately in conformity with the official plat of independent resurvey certain lands included in Power Site Classification No. 210, Colorado River Basin, Arizona and Nevada. A dependent resurvey of T. 8 N., R. 5 E., Boise Meridian, Idaho, was accepted December 29, 1943. The triplicate plat of the resurvey which also shows the segregation of mineral and other claims therein, will be forwarded to your office for filing within the near future.

As shown by the records of this office, certain lands in secs. 1, 2, 5, 6, 7, 8, 9, 10, and 11, in so far as title thereto remains in the United States, are embraced in Power Site Classification No. 146, Idaho No. 7, approved May 20, 1926.

In terms of the resurvey and as a result of new lottings caused by segregations in secs. 1, 9, 10, and 11, the withdrawal as to these sections is now described as follows:

No. 116; Power Site Reserve No.

MEMORANDUM for the Register,
District Land Office,
Denver, Colorado.

Reference is had to our memorandum of April 13 with regard to the description in terms of the plat of the dependent resurvey of T. 5 S., R. 81 W., 6th P.M., Colorado, accepted November 1, 1943, of Temporary Power Site Withdrawal No. 116 and Power Site Reserve No. 253 as modified by certain orders of restoration. The former withdrawal was modified by Orders of Restoration Nos. 67, 276, 397, 408, and 1074, and the latter by Orders of Restoration Nos. 381 and 397.

It has been noted that Orders Nos. 276, 381, and 1074 affect restorations which were made under sec. 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1063) rather than the restoration of lands from the withdrawals themselves. Order No. 276 involves the SE $\frac{1}{4}$ SW $\frac{1}{4}$ sec. 15, and NE $\frac{1}{4}$ NW $\frac{1}{4}$ sec. 22; No. 1074, the W $\frac{1}{2}$ NW $\frac{1}{4}$ sec. 22, all within Temporary Power Site Withdrawal No. 116 and Order No. 381, the NW $\frac{1}{4}$ SE $\frac{1}{4}$ sec. 12, within Power Site Reserve No. 253. The resurvey plat does not show new descriptions for these lands.

Consequently, the description of these lands as withdrawn and as subject to the restorations under sec. 24 of the Federal Power Act remains in terms of the original survey or as described in Orders of Restoration Nos. 276, 381, and 1074.

Please make appropriate notations to this effect on your records. This action is in compliance with the instructions of the Assistant Secretary of August 31, 1942.

The former withdrawal was modified by orders of Restoration Nos. 276, 327, 328, and 329, and the latter by orders of Restoration Nos. 381 and 327.

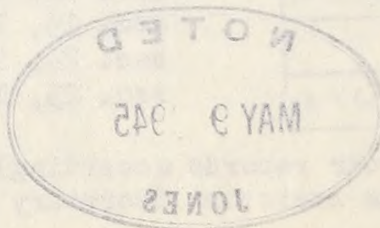

It has been noted that orders Nos. 276, 381, and 327 affect restorations which were made under sec. 24 of the Federal Power Act of June 10, 1920 (41 stat. 1063) rather than the restoration of lands from the withdrawal themselves. Order No. 276 involves the SE 1/4 SW 32 1/2 sec. 15, and NE 1/4 sec. 22, No. 107, the NW 1/4 sec. 22, all within Temporary Power Site Withdrawal No. 116 and Order No. 381, the NW 1/4 sec. 15, within Power Site Reserve No. 253. Our records also show that all lands which when surveyed will lie within 1/4 mile of Colorado River were embraced in Power Site Reserve No. 446 by Executive Order of September 5, 1914, and also in Water Power Designation No. 7, Arizona No. 4, by the Secretary on February 9, 1917.

No conformation to the lines of survey in this township are involved since none of the lands withdrawn thereunder by virtue of the location of the Colorado River appear to invade this township.

The records of the district land office should be posted accordingly. This action is in compliance with the instructions of the Assistant Secretary of August 31, 1942.

Memorandum

To: Regional Administrator, Region V, Albuquerque, New Mexico

From: Chief, Branch of Surveys

Subject: Water Power Designation No. 1 New Mexico No. 1

Reference is had to our memorandum of September 16, 1949 in which the lands reserved as Water Power Designation No. 1 in T. 18 N., R. 12 E., N.M.P.M., New Mexico, are described by legal subdivisions in terms of the plat of survey of this township approved September 20, 1883, were adjusted to the plat of the independent resurvey of the township approved February 14, 1928 and described in terms of that plat.

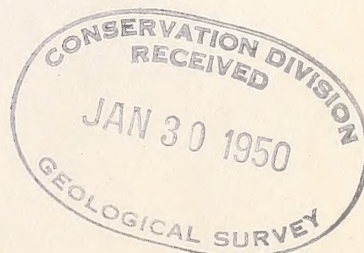

It has been noted that so much of this adjustment as describes the $E\frac{1}{2}SE\frac{1}{4}$ sec. 14 should be described as the $E\frac{1}{2}SW\frac{1}{4}$ of that section.

Notations to this effect have been placed on the records of this office and it is requested that the land office records be noted accordingly.

Memorandum

To: Regional Administrator, Region 5, Albuquerque, New Mexico

From: Chief, Division of Engineering

Subject: Water Power Designation No. 1 New Mexico No. 1

By order of August 7, 1916, certain lands in T. 16 N., R. 12 E., N.M.P.M., New Mexico, as described by legal subdivisions in terms of the plat of survey approved September 30, 1882, were reserved under Water Power Designation No. 1 New Mexico No. 1. This plat shows the segregation of the Alexander Valle Grant in sections 16 and 17 and other sections as surveyed in 1876.

In view of a redetermination of the boundaries of this grant in 1913, a partial resurvey was made in 1919 as shown by plat approved February 28, 1921 which shows a re-segregation of the grant, while a supplemental plat of section 5, approved October 24, 1923 shows revised lottings therein.

In terms of the latter plats the withdrawal is now described as follows:

An immediate report of such date will be made to the Director. The original plat will be placed in the open files of the Public Survey Office. (See Circular 1715, approved December 23, 1948, Federal Register of December 31, 1948, page 9568).

Because of certain relottings shown on the plat of survey, the following withdrawals are herein amended in terms of this plat:

Memorandum

To: Regional Administrator, Region II, San Francisco, California
From: Chief, Branch of Surveys
Subject: Power Site Reserve No. 614; Power Project No. 1397
Plat distribution--Group 381 California

The original plat of the surveys and resurveys in T. 16 S., R. 20 E., S.B.M., California, accepted February 26, 1951, together with the usual sales copies, is being forwarded to the Survey Office at San Francisco and the triplicate plat to the Land Office at Los Angeles by registered mail. This work was done upon the request of the Bureau of Reclamation and embraces a resurvey of lands surveyed in 1856 as shown by plat approved February 6, 1857 and an extension survey in secs. 15, 22, and 25.

Our records show that Power Site Reserve No. 614 and Power Project No. 1397 embrace rights-of-way through certain lands in this township, among others. According to the withdrawal records the rights-of-way are referenced to the limiting east boundary of the township or to corners of the 1918 survey in the southwest portion of the township but not to the corners of the 1856 survey of the subdivisions, probably because of the advanced state of obliteration in which this survey was found. Because of a marked divergence between the recorded and resurveyed east boundary, the description of the withdrawal as to T. 16 S., R. 20 E. is hereby amended.

Power Site Reserve No. 614

By order of May 4, 1917, all portions of the $S\frac{1}{2}S\frac{1}{2}$ sec. 14, $S\frac{1}{2}SE\frac{1}{4}$ sec. 15, $N\frac{1}{2}NE\frac{1}{4}$, $N\frac{1}{2}NW\frac{1}{4}$ sec. 22, $NE\frac{1}{4}NE\frac{1}{4}$ sec. 23, and $N\frac{1}{2}N\frac{1}{2}$ sec. 24 in this township lying within 50 feet of the center line of the right-of-way as shown by map filed with application El Centro 03180, were included in Power Site Reserve No. 614.

Based upon the above plat, the withdrawal in this township is now described as embracing all portions of the following subdivisions lying within 50 feet of said center line:

San Bernardino Meridian

T. 16 S., R. 20 E.
sec. 22, lot 4, $NE\frac{1}{4}NE\frac{1}{4}$, $S\frac{1}{2}NE\frac{1}{4}$, and $N\frac{1}{2}SW\frac{1}{4}$;
sec. 23, $N\frac{1}{2}N\frac{1}{2}$ and $SE\frac{1}{4}NE\frac{1}{4}$;
sec. 24, lots 4, 5, 6, $NW\frac{1}{4}NW\frac{1}{4}$ and $S\frac{1}{2}NW\frac{1}{4}$

It is requested that the records of the land office be posted accordingly. This action is in compliance with the instructions of the Assistant Secretary of August 31, 1942.

Memorandum

To: Regional Administrator, Region I, Portland, Oregon
From: Chief, Branch of Surveys
Subject: Power Site Reserve No. 429--Group 237 Oregon

Under separate cover by registered mail the original plat together with the usual copies of the dependent resurvey of T. 39 S., R. 22 E., W.M., Oregon, accepted August 9, 1951, is being forwarded for the Survey Office files and the triplicate plat for the land office. This survey was made upon the request of the Forest Service in order to properly identify public and privately owned lands in the township.

Since no lands are returned as surveyed for the first time, public notice is not required and the plat will be regarded as officially filed on the date of receipt thereof. An immediate report of such date will be made to the Director. The original plat will be placed in the open files of the survey office (see Circular 1715, approved December 23, 1948).

Our records show that by Order of April 3, 1914, the NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$ sec. 12, NE $\frac{1}{4}$ NE $\frac{1}{4}$ sec. 13, and SW $\frac{1}{4}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$ sec. 25 in this township, among other lands, were embraced in Power Site No. 429.

Since the resurvey plat shows the relotting of certain lands, the withdrawal in terms of this plat and as to the lands described is now described as follows:

Willamette Meridian

T. 39 S., R. 22 E.
sec. 12, lots 3, 4, 5, 6, 10, and 11;
sec. 13, lot 1;
sec. 25, SW $\frac{1}{4}$ NE $\frac{1}{4}$, and SE $\frac{1}{4}$ SE $\frac{1}{4}$

It is requested that the records of the land office be posted accordingly. This action is in compliance with the instructions of the Assistant Secretary of August 31, 1942.

Memorandum

To: Director, Bureau of Land Management

From: Director, Geological Survey

Subject: Adjustment of Power Site Reserve No. 659 and
Water Power Designation No. 14, Oregon

Receipt is acknowledged of memorandum of October 25, 1951 (E: 2110208 751684 752231), to the Regional Administrator, Region I, Portland, Oregon, by the Chief, Branch of Surveys, adjusting the description of lands in sec. 35, T. 19 S., R. 7 W., Willamette meridian, Oregon, listed in Power Site Reserve No. 659, and Water Power Designation No. 14 to conform with official plat of dependent resurvey accepted May 16, 1951.

It is noted that lot 13 (SE $\frac{1}{4}$ SW $\frac{1}{4}$), and lot 14 (SW $\frac{1}{4}$ SE $\frac{1}{4}$) sec. 35, are included in the adjustment. These two tracts were eliminated from Power Site Reserve No. 659 by Power Site Restoration No. 325 by Executive Order of May 20, 1922, and from Water Power Designation No. 14 by Power Site Cancellation No. 6, by order dated June 30, 1922. Your attention is called to this discrepancy for such action as deemed appropriate.

The areas of the lands withdrawn by the two orders are decreased 15 acres each by this adjustment as corrected.

The adjustment is designated as Power Site Interpretation No. 382 for filing purposes in the Geological Survey.

Memorandum

To: Regional Administrator, Region I, Portland, Oregon

From: Chief, Division of Cadastral Engineering

Subject: Power Site Reserve No. 659, Water Power Designation No. 14, Group 284 Oregon

By memorandum of October 2 the plats of the dependent resurvey of T. 19 S., R. 7 W., W.M., Oregon, accepted May 16, 1951, were forwarded to your office for official filing.

According to our records, certain lands in secs. 1, 3, 5, 7, 9, 11, 19, 21, 27, and 35 in this township, among others, were included in Power Site Reserve No. 659 by Executive Order of December 12, 1917, and in Water Power Designation No. 14 by Order dated December 12, 1917.

Since the resurvey plat shows relottings in sec. 35 of this township, so much of these withdrawals as embrace lands in sec. 35 are amended to read, as follows:

Willamette Meridian

T. 19 S., R. 7 W.,

sec. 35, lots 1, 5, 6, 7, 9, 10, 11, 12, 13, and 14, NW $\frac{1}{4}$ NE $\frac{1}{4}$

It is requested that the records of the land office be posted accordingly.

Project No. 589 California

Int. 383 (sup.)

JAN 30 1952

The Director
Bureau of Land Management
Department of the Interior
Washington 25, D. C.

Dear Sir:

By letter dated January 26, 1940 this Commission advised your office of the reservation, among other lands, of a strip of land 100 feet in width across lot 10 and through those portions of lots 3, 8, 9, 11, 12, 13, ~~SE 1/4~~ ~~SE 1/4~~ ~~NE 1/4~~ section 29, T. 16 S., R. 22 E., S.B.M., California, lying within the United States Reclamation Service Levee Reservation as are occupied for transmission line purposes according to maps filed by the Southern Sierra Power Company in project No. 589.

At the time of preparation of the above-cited letter this Commission was cognizant of the apparent existence of unsurveyed lands beyond the surveyed limits of the aforesaid lots, said lands having been referred to as being within the levee reservation.

This Commission has received a copy of your memorandums (E: 1273809; 52282; 1237809) dated December 6, 1951, addressed to the Regional Administrator, Region II advising of the acceptance on September 7, 1951 of plats of the resurvey and extension surveys involving lands formed by accretion in the aforesaid section 29, T. 16 S., R. 22 E., as well as in other areas.

Not being aware of the nature and extent of the lands lying adjacent to the above described lots this Commission intended for their reservation by making reference to them as being within the levee reservation. In a subsequent communication from your office dated January 5, 1951 (1952) we are advised that an amendment of withdrawal is in order rather than an adjustment of existing withdrawals.

In accordance with the above, the lands within the 100-foot strip withdrawn for transmission purposes on May 10, 1926 by the filing of application for license in project No. 589, are construed,

Memorandum

To: Regional Administrator, Region I, Portland, Oregon

From: Chief, Branch of Surveys

Subject: Water Power Designation No. 14; plat distribution--
Group 293 Oregon

Under separate cover by registered mail the original plat, together with the usual sales copies of the dependent resurvey of a portion of T. 20 S., R. 6 W., W.M., Oregon, accepted August 16, 1951, is being forwarded for the Survey Office files and the triplicate plat for the Land Office.

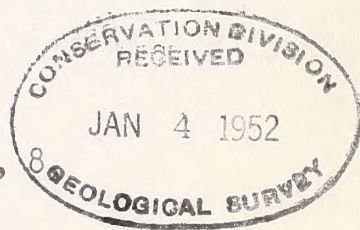

Since no lands were returned as surveyed for the first time, public notice is not required and the plat will be regarded as officially filed in the land office on the date of receipt thereof. An immediate report of such date will be made to the Director. The original plat will be placed in the open files of the survey office (see Circular 1715, approved December 23, 1948).

According to our records, certain lands in secs. 1, 3, 5, 9, 11, and 13 of this township, among others, were classified as power-site lands under Water Power Designation No. 14 by order of December 12, 1917. Because of re-lottings in secs. 3 and 9 on the plat of resurvey, so much of this water power designation as describes lands in said sections 3 and 9 is modified to read as follows, without modification as to secs. 1, 5, 11, and 13:

Memorandum

To: Regional Administrator, Region VII, Anchorage, Alaska
From: Chief, Branch of Surveys
Subject: Power Site Classification Nos. 107 and 399; Group 72 Alaska

On March 27, 1951, the plat of the survey of secs. 6, 7, 8, and 17, T. 14 N., R. 1 W., S.M., Alaska, accepted February 23, 1951, was forwarded for filing in the Land Office at Anchorage.

The records show that Power Site Classification No. 107 embraces certain lands in sec. 18 of this township and all unsurveyed lands within 1/4 mile of Eagle River in the remainder of the township, among others. Apparently only sec. 17 is involved in so far as this plat of survey is concerned.

So much of the Order of June 12, 1925 creating this classification as describes unsurveyed lands adjacent to Eagle River in sec. 17 only therefore is amended in terms of this plat to read as follows:

Seward Meridian

T. 14 N., R. 1 W.
sec. 17, S $\frac{1}{2}$

The records also show that Power Site Classification No. 399 of March 29, 1950, embraces all unsurveyed lands in this township and others adjacent to Eagle River and tributaries at an altitude of less than 500 feet above sea level and not reserved by Power Site Classification No. 107, as shown by river survey maps of Eagle River.

Since sec. 17 is the only one involved in so far as this plat of survey is concerned and as the lands adjacent to the river and at a lower altitude than 500 feet above sea level within this section are embraced in Power Site Classification No. 107, as herein described, it appears that Power Site Classification No. 399 is not effective as to sec. 17.

It is requested that the land office records be appropriately noted as to these withdrawals. This action is in compliance with the

Subject: Power Site Classification No. 116

According to our records, lots 3, 4, 5, 6, 7, NW $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$ and N $\frac{1}{2}$ SE $\frac{1}{4}$ sec. 10, T. 9 N., R. 4 E., H.M., California, among other lands, insofar as title thereto remains in the United States, were withdrawn under Power Site Classification No. 116, approved September 19, 1925.

This description of lands in sec. 10 is based upon plats of survey approved December 30, 1882 and June 30, 1911; the former representing surveys north of the north boundary of the Hoopa Valley Indian Reservation made by John Haughn in 1882, and the latter of surveys south of the boundary made by George W. Pearson in 1910.

In view of the hiatus existing between the Haughn north boundary of the reservation and the true north boundary, an extension survey was made embracing the lands between these boundaries, as shown by plat approved May 29, 1928, which includes certain lands not heretofore noted lying within the exterior limits of the withdrawal in sec. 10, described as follows:

Humboldt Meridian

T. 9 N., R. 4 E.
sec. 10, lots 16, 20, 21,
22, and 23

It is requested that the records of the Land Office be posted accordingly. This action is in compliance with the Assistant Secretary's instructions of August 31, 1942.

Abstract: The purpose of this study was to determine the effect of a 12-week training program on the physical fitness of 12-year-old children. The program consisted of three sessions per week, each lasting 30 minutes. The sessions included aerobic exercise, strength training, and flexibility exercises. The children were tested at the beginning and end of the program for heart rate, blood pressure, and body composition. The results showed that the children who participated in the program had significantly lower heart rates and blood pressures compared to the control group. Additionally, the children who participated in the program had a significant increase in muscle mass and a decrease in body fat percentage. These findings suggest that a 12-week training program can improve the physical fitness of 12-year-old children.
